Electronic News and Notices

The following sites on the World Wide Web will be of immediate interest (note that the addresses must be entered exactly as they appear here):

<http://stream.blg.uc.edu/csc/index.html> – the Keimelia Web page for the study collection of the Department of Classics of the University of Cincinnati. This collection consists of antiquities ranging in date from the Neolithic to the modern period collected primarily from Greece and Turkey. The primary purpose of the collection is to act as a chronological and typological study group for pottery and minor arts. It houses a considerable assembly of sherds from Lerna, Troy, and Amuq. In addition, over 200 silver and bronze coins from Greece and Italy are in the collection and remain to be added to this catalog.

http://www.chass.utoronto.ca:8080/fine_arts/chloris/ – Chloris is a searchable bibliography of the Bronze Age archaeology of mainland Greece and Crete, maintained by the University of Toronto. Its purpose is to fill a gap in the current bibliographies of this subject. Chloris is organized by site and allows one to search for published material concerning a specific site (e.g., Tiryns) or region (e.g., Argolid).

<http://www.usia.gov/education/culprop/> – the International Cultural Property Protection Web page of the United States Information Agency (USIA). It includes topics such as “Protecting Cultural Property Worldwide,” “The U.S. Response,” and “U.S. and International Laws.”

Announcements

Malcolm Wiener, President of the Board of the Institute for Aegean Prehistory (INSTAP), was awarded an honorary degree from the University of Tübingen in Germany on 23 October 1998. The doctorate was the first honorary degree awarded by the University in three years and the first ever to a prehistorian. On 20 November 1998, Dr. Wiener was also awarded an honorary degree by the University of Athens. The accompanying citations noted Dr. Wiener's contributions to the preservation of sites and publication of the research of others, as well as his own scholarly contributions to Mediterranean prehistory and Bronze Age chronology. Dr. Wiener has also recently been elected a Corresponding Member of the Austrian Archaeological Institute, a Fellow of the Society of Antiquaries in London, and a Vice President of the British School at Athens. A conference on Cypriot White Slip pottery was also held in his honor in Nicosia, Cyprus, on 29-30 October 1998. The Editors of *NESTOR* would like to congratulate Dr. Wiener on all of his recent awards and overall accomplishments.

Announcements

Grant applications are now available from the Institute for Aegean Prehistory for the calendrical year 2000. The application deadline is December 1, 1999. Projects relevant to the history of the Aegean world from the Paleolithic to the first Olympiad are eligible for funding. Projects outside the Aegean must have a direct relationship to Aegean prehistory in order to be considered for funding. The INSTAP Research Review Committee will consider applications during December and January and announce awards by late February 2000. Excavation directors only may also apply for funds for technical archaeological services and for publication preparation. Projects which have completed excavation and are preparing material for publication are eligible. Your project need not receive basic support from INSTAP to qualify for publication team funds. Support may be requested to cover the expenses for one or more specialists to assist the excavation director in one or more of the following categories: artist for pottery and small finds, artist for architecture, computer specialist, editor, conservator, or photographer. INSTAP also has available a group of specialists in each category to supplement those already assembled by a project director or to provide a complete publication team should a director wish. Please contact INSTAP if you wish to explore this option. INSTAP does not provide funds to support: (1) students obtaining degrees, (2) travel or maintenance of children or spouses, (3) research expenses incurred before the date of a grant, (4) salaries for researchers, (5) purchase of expensive individual items of equipment such as computers, cameras and video recorders, or (6) general activities of other institutions or entities including "overhead expenses." To receive a copy of INSTAP guidelines and an application form, send your postal address to: all@styx.ios.com or Adelaide Lewis, Institute for Aegean Prehistory, 1270 Avenue of the Americas, New York, NY 10020-1795.

The Institute for Aegean Prehistory is pleased to announce the availability of three post-doctoral fellowships to be awarded on a competitive basis to eligible candidates for work to be done during the July 1, 2000-June 30, 2001 year. The year-long fellowships are intended for scholars in the field of the Aegean Bronze Age/Early Iron Age who have received a Ph.D. degree in the past five years. Fellowships will be awarded in the amount of \$20,000, plus up to \$4,000 additional for travel expenses. Applications must be received by November 1, 1999, and awards will be announced by March 1, 2000. The fellowships will be awarded for a specific project and are not renewable. To receive a copy of INSTAP guidelines and an application form, send your postal address to: all@styx.ios.com or Adelaide Lewis, Institute for Aegean Prehistory, 1270 Avenue of the Americas New York, NY 10020-1795.
