The Program of Aegean Scripts and Prehistory announces that the publication §981029 (Hirschfeld, Nicolle 1996. *The PASP Data Base for the Use of Scripts on Cyprus*. Minos Suppl. 13. Salamanca: Ediciones Universidad de Salamanca) is now available in a searchable on-line version at <http://paspserver.class.utexas.edu/cyprus/index.html>. The database lists the Cypro-Minoan, Eteo-Cypriot, Cypriot Syllabic, and Greek inscriptions (through the fourth century A.D.) found on the island of Cyprus, and the Cypriot Syllabic inscriptions found elsewhere. Inscriptions dated later than the fourth century A.D., amphora stamps, jewelry, coins, graffiti in the Greek script, inscriptions appearing in the decoration of imported (Athenian) vases, and single signs of any kind are not yet included in this database. It is hoped that those materials can eventually be incorporated, and also inscriptions in Phoenician, Latin, and other languages. The on-line database represents research conducted through 1995. Updates, corrections, and emendations are welcomed.

The first issue of the new international journal *Mediterranean Archaeology & Archaeometry* is now available at [http://www.rhodes.aegean.gr/maa\\_journal](http://www.rhodes.aegean.gr/maa_journal). This journal focuses on the Mediterranean region and interactions of the Mediterranean with neighboring areas, and it presents an international forum of research, innovations, discoveries, applications, and meetings concerning modern approaches to the study of the human past. A wide range of interdisciplinary topics are covered. Articles of interest to *Nestor* readers in *MAA* 1.1 (2001) are listed in the new **ELECTRONIC PUBLICATIONS** section below.

The web-site of the TAY (The Archaeological Settlements of Turkey) Project is available at <http://tayproject.org>. The project is compiling a chronological inventory of findings about the cultural heritage of Turkey, with the objective of providing the documentation necessary to protect sites from destruction. The TAY web-site has information about TAG (The Archaeological Survey of Turkey), TAYNet (the searchable on-line culture/settlement inventory in English and Turkish, currently available only for the Palaeolithic and Epipalaeolithic periods), and TAYex (including "Archaeological Destruction in Turkey – 2001" and "2001 Preliminary Report on Mediterranean and Southeastern Anatolia Regions"; previously completed work has included Marmara and Aegean Anatolia). TAY hardcopy binders, with continuous updates sent to users, are available for sale for the Palaeolithic/Epipalaeolithic, Chalcolithic, and Neolithic periods, containing a leaflet for every location with 20-30 fields of geographic, archaeological, and bibliographic information including a location map and drawings of artifacts; each period binder also contains a comprehensive bibliography, a comparative chart with neighboring regions, and a map of the sites. Further binders are in production for later periods. Further information is available from TAY Project, Aslanyatagi Sok. Sedef Palas 35/2, 80060 Cihangir Istanbul Turkey; telephone: 90-212-249-0520; fax: 90-212-263-1758; e-mail: [info@tayproject.org](mailto:info@tayproject.org).

#### *Calls for Papers*

On 18 May 2002 the **Liverpool Interdisciplinary Symposium in Antiquity (LISA) 2002: Cult and Death** will be held at the University of Liverpool. Abstracts by postgraduate researchers (200 words maximum) for posters or for papers of 20 minutes length are due on 15 April 2002; send abstracts to LISA 2002, School of Archaeology, Classics and Oriental Studies, The University of Liverpool, 14 Abercromby Square, Liverpool, L69 3BX or by e-mail to [dnaoum@liv.ac.uk](mailto:dnaoum@liv.ac.uk). Further information is available from the Organising Committee of Danai Naoum, Mercouris Georgiadis, and Gina Muskett at the addresses above or at [G.M.Muskett@liverpool.ac.uk](mailto:G.M.Muskett@liverpool.ac.uk), or at [www.liv.ac.uk/Archaeology\\_Classics/LISA/lisa2002/htm](http://www.liv.ac.uk/Archaeology_Classics/LISA/lisa2002/htm).

On 7-8 November 2003 the Hood Museum of Art and the Departments of Classics and Art History at Dartmouth College will host a conference on **Constructions of Childhood in the Ancient World** to accompany an exhibition entitled "Coming of Age in Ancient Greece: Images of Childhood from the Classical Past." The conference will include papers that address representations of children in the Mediterranean region, with a chronological range from prehistory to the end of the Roman empire, and with approaches that may include art historical, archaeological, literary, and historical methodologies. Papers (20 minutes in length) may deal with any aspect of childhood and its representation, including gender and sexuality, education, daily life, death and burial, visual relationships between children and adults, or contrasts between ideal and experienced patterns of childhood, with the aim of exploring the influential and

controversial assumption that the pre-modern world lacked a notion of childhood as a distinct phase in human life. Abstracts (350 words maximum) should be sent by 15 October 2002 to Jeremy Rutter, Department of Classics, H.B. 6086, Dartmouth College, Hanover, NH 03755; fax: 603-646-3353; e-mail: [jeremy.b.rutter@dartmouth.edu](mailto:jeremy.b.rutter@dartmouth.edu) or to Ada Cohen, Department of Art History, H.B. 6033, Dartmouth College, Hanover, N.H. 03755; fax: 603-646-3428; e-mail: [ada.cohen@dartmouth.edu](mailto:ada.cohen@dartmouth.edu).

## COMMUNICATIONS

### *From the Editors*

The editors of *Nestor* are pleased to welcome back readers from their summer research. We bid farewell to K. Mark Armstrong and Philip Kiernan, and welcome new Assistant Editors Sarah Dieterle and Michael Ludwig.

### *Grants and Fellowships*

On 15 January 2003 applications are due for the **Mediterranean Archaeological Trust Grants** of up to £10,000 to assist with the publication of archaeological fieldwork in the Mediterranean world, with priority to Bronze Age subjects. Application should be sent to Professor Sir John Boardman, (Mediterranean Archaeological Trust), Ashmolean Museum, Oxford OX1 2PH, UK or by fax to +44-1865-278082. Application should comprise a 2000 word maximum description of the proposed work and an outline budget, together with the names of two to four referees, whose references should be sent directly by the referees or accompany the application in a sealed envelope. Successful applicants will be informed by around the end of March 2003.

### *Calls for Papers*

In May 2003 the **4<sup>th</sup> Symposium on Archaeometry of the Hellenic Society of Archaeometry** will be held in Athens, Greece. The main topics, pertaining to materials from prehistory and classical antiquity through Byzantine and recent times, will be science-based dating, technology and provenance of archaeological materials (ceramics, metals, glass, stone, mortars, pigments, *etc.*), remote sensing, geoarchaeology, biomaterials, organic residues, research in conservation science, and mathematical methods, with a theme session focusing on the Aegean and the presentation of reviews and developments of archaeometric studies over the past 20 years. Response forms (available at <http://www.archaeometry.gr/symposium2003/4thsymposiumHSAEn.htm>) should be returned by 20 September 2002 to [kpolikreti@ims.demokritos.gr](mailto:kpolikreti@ims.demokritos.gr) (Dr. K. Polikreti) or [zacharias@ims.demokritos.gr](mailto:zacharias@ims.demokritos.gr) (Dr. N. Zacharias). Abstracts (400-500 words, stating the main points, the methodology, the results and principal conclusions of the paper) in either English or Greek should be sent to the Symposium Correspondence Address by 20 November 2002. Abstracts must list the author(s) and the address(es) at the top of the page, underlining the name of the author presenting the paper; any references should be in the format of the journal *Archaeometry*. The official languages of the symposium are Greek and English; publication versions of papers should be written in English.

**Obituaries**

The editors of *Nestor* are saddened to report the death of Dr. Martin David Kamen. Together with Dr. Samuel Rubin, Dr. Kamen discovered radioactive carbon-14 at the University of California at Berkeley in 1940. In addition to revolutionizing archaeological dating of organic materials, this discovery was instrumental for deciphering the chemical processes of living organisms.

## COMMUNICATIONS

### **Announcements**

From October 2002 the *National Archaeological Museum* in Athens will be closed to the public for more than a year prior to the 2004 Olympic Games. The second floor of the Museum has already been closed to the public since the earthquake in September 1999. The repairs will include restoration of the building from the earthquake, installation of air-conditioning, construction of seven elevators, opening up emergency exits, and construction of a ramp for disabled visitors. The façade of the Neoclassical building will not be altered.

On 31 May 2002 H.R. Highness Prince Henrik of Denmark inaugurated the *A.G. Leventis Foundation Gallery of Cypriote Antiquities* in the National Museum of Denmark, Copenhagen. The gallery has been endowed by the A.G. Leventis Foundation, which also published an illustrated catalogue of the exhibits (see *Nestor* 29.3 (March 2002), §020292). The collection is rich in Bronze Age and Iron Age pottery as well as terracottas and stone sculptures. Three previously opened Leventis Galleries in foreign museums are in the British Museum (London), the Metropolitan Museum of Art (New York), and the Fitzwilliam Museum (Cambridge, England); a fifth Leventis Gallery is in preparation in the Royal Ontario Museum (Toronto, Canada). Further information is available from the A.G. Leventis Foundation at [leventcy@zenon.logos.cy.net](mailto:leventcy@zenon.logos.cy.net).

From 13 July 2002 through 5 January 2003 the international exhibition *Minoans and Mycenaeans, Flavours of their Time: Food and Drink in Bronze Age Greece* will be open at the Birmingham Museum and Art Gallery, organized by the Hellenic Ministry of Culture, the Hellenic Cultural Heritage S.A., and the Cultural Olympiad 2001-2004. The Birmingham showing includes much new work not previously exhibited in Athens, Rethymnon, or Chicago, which was recently undertaken by the project that underpins the exhibition, co-directed by Dr. Yannis Tzedakis and Dr. Holley Martlew. Further information is available from Robert Arnott, The Medical School, University of Birmingham, Birmingham B15 2TT, UK; telephone: 0121-414-6804 (voice mail); fax: 0121-414-4036; e-mail: [R.G.Arnott@bham.ac.uk](mailto:R.G.Arnott@bham.ac.uk); web-site: <http://medweb.bham.ac.uk/histmed>. For information about the series of lectures and one-day conference organized by the Centre for the History of Medicine of the University of Birmingham Medical School in support of this exhibition, see *infra*, ***Future Lectures and Conferences***.

Elizabeth French has kindly asked that the following note be published concerning her recent book which was listed in *Nestor* 29:4 (April 2002):

French, Elizabeth 2002. *Mycenae: Agamemnon's Capital. The Site in its Setting*. §020420  
Gloucestershire: Tempus Publishing Ltd. ISBN 0-7524-1951-X.

This was reprinted in June and the opportunity was taken to make some factual corrections. Those who have copies of the original printing should note the following errors:

- p.37, 80: Grave Circle A contained the remains of nine women, eight men and one child.  
p.48: The tomb with Mycenaean pottery was found near (not in) the Teti pyramid at Sakhara.  
p.123, fig. 58: the large tablet should be on the left (and occur only once).  
p.124, fig. 59: the correct ratios for the units at the bottom of the chart are:  
10 T = 1 Dry Unit; 3 \* = 1 Wet Unit  
Colour plate 20 is reversed; the warriors should carry their shields on their left arms.

Applicants must possess the PhD or an equivalent degree or be able to submit substantial amounts of written work (published or unpublished), and should be 35 years of age or less on 1 October 2003, with possible exception for persons over this age if they began their research at a significantly later age than usual or they have interrupted their careers for family or other reasons. The annual stipend will start at a minimum of £13,050, depending on age and experience; allowances for travel and research expenses (maximum £1000 annually), and for conference subsidies (maximum additional £500 annually) will be available. Applications (typed in SIX copies) must include (1) a curriculum vitae, (2) an account (1000 words maximum) of the proposed research, including any plans for fieldwork, stating the aims of the research and the background to it, (3) the names and addresses of two referees (including telephone and fax numbers and e-mail addresses), who should be asked to write at once direct to the college, and (4) a list of published or unpublished work that would be available for submission if requested. Short-listed candidates may be asked to make themselves available for interview at Darwin College in early January, with election as soon as possible thereafter. Further information about the duties of the Finley Research Fellow, stipends, and emoluments is available from Darwin College. The Fellowship will run for four years from 1 October 2003.

On 1 January 2003 applications are due for the **Margo Tytus Visiting Scholars Program** in the fields of archaeology, history, or philology at the University of Cincinnati, Classics Department, tenable during the academic year from 1 October 2003 through 31 May 2004. ### *Call for Papers*

On 1 February 2003 titles and abstracts (250 words) are due from interested contributors to an International Colloquium entitled **Current Issues in State Formation: the Mediterranean and Beyond**, to be held at the University of North Carolina at Chapel Hill on 17-19 October 2003; titles and abstracts should be sent to Donald Haggis (dchaggis@email.unc.edu), Nicola Terrenato (terrenat@email.unc.edu), or Robert Vander Poppen (rvander@email.unc.edu). Further information is available at <http://www.classics.unc.edu/wgems/>. The purpose of the colloquium is to assess the current state of research in the study of state formation, to bring together diverse practitioners and strands of the discourse on early state societies, and to encourage a broad discussion of methods, approaches, and case studies. At least three major sessions are planned: one concerning theories about early states going beyond simple evolutionism, one specifically presenting and discussing Mediterranean case-studies, and one on the contribution of environmental archaeology to the problem. Proposals for other sessions and individual papers are invited; individual contributions might include the following topics:

Results of excavations and surveys

Formal and functional definitions of the “state” (*e.g.*, city-states, ethnos states, polis states, palace states, kingdom states, *etc.*)

Definitions of integration and complexity in analyses of state structure

Modeling the process of emergence and changing organizational structure

Effective scales of analysis of on-site, local, and regional patterns

Methods of analyzing patterns of site distribution and interaction

Definitions of “pre-state” society and the implications of pre-state structure for analyses of state formation

Kinship and social structure

### Obituary

The editors of *Nestor* are saddened to report the death of Charles J. Vitaliano. His analyses of tephra from the Minoan eruption in Santorini, Greece, contributed to the investigation of ash distribution from that eruption and to the study of volcanic deposits which are relevant to the chronology of the Aegean Bronze Age. In addition to other publications on these subjects, he contributed to all three conferences on *Thera and the Aegean World*.
