### COMMUNICATIONS

#### *From the Editors*

*NESTOR* would like to welcome Aaron Wolpert as a new staff member (Assistant Editor) and regrets to announce the departure of A.J. Lyons, who served ably as an Assistant Editor from September 1995 to September 1996.

We would like to pose the following questions to *NESTOR* readers:

- 1) The geographical region covered by *NESTOR* encompasses the Aegean and neighboring areas, including Greece, Italy, Sicily, the Balkans, the Cyclades, Anatolia, the Levant, and Egypt. Are you content with this range? Would you like to see the range increased? Decreased? Which areas would you add or subtract?
- 2) The chronological range currently covered by *NESTOR* runs from the Paleolithic to the end of the Bronze Age. Are you content with these limits? Would you like to see the range increased? Decreased? Which periods would you add or subtract? Would you be interested in including the Early Iron Age (Lefkandi, for example) within *NESTOR*'s coverage? Should we include Homeric topics?
- 3) Should we include literature concerning epigraphical material in addition to the prehistoric Aegean scripts (Hittite archives or Ugaritic letters, for example)?

*NESTOR* would like to know what you think, and how we may best serve our readers. Please send responses to the above questions or any suggestions in general to *NESTOR*, Department of Classics, University of Cincinnati M.L. 0226, Cincinnati, Ohio 45221-0226, U.S.A., or e-mail us at [nestor@ucbeh.san.uc.edu](mailto:nestor@ucbeh.san.uc.edu).

#### *Electronic News and Notices*

The following sites on the World Wide Web will be of immediate interest (note that the addresses must be typed in exactly as they appear here):

[http://devlab.dartmouth.edu/history/bronze\\_age/](http://devlab.dartmouth.edu/history/bronze_age/) -- Jerry Rutter's Web version of his Aegean Bronze Age course at Dartmouth College is now much improved, with some 500 illustrations, 500 scanned images, and independently indexed text, bibliography, and image caption files.

<http://www-oi.uchicago.edu/OI/DEPT/RA/ABZU/ABZU.HTML> -- maintained by Charles Jones at the Oriental Institute of the University of Chicago, ABZU is a guide to resources for the study of the ancient Near East available on the Internet, which will contain much of peripheral interest to Aegean prehistorians.

<http://argos.evansville.edu> -- Argos is a limited search engine of the Ancient and Medieval worlds maintained by the University of Evansville and will lead *NESTOR* readers to much of interest; simply type in the topic of concern and a list of relevant occurrences on the Web will be generated, with links which can be followed to those sites.
